(Montréal, Québec – July 16, 2019) Osisko Metals Incorporated (the "**Corporation**" or "**Osisko Metals**") (TSX-V: OM; FRANKFURT: 0B51; OTCQX: OMZNF) is pleased to announce that it has closed its previously-announced "best efforts" brokered private placement, pursuant to which the Corporation sold an aggregate of 13,553,114 common shares of the Corporation that will qualify as "flow-through shares" (within the meaning of subsection 66 (15) of the *Income Tax Act* (Canada)) ("**Flow-Through Shares**") for aggregate gross proceeds of approximately \$10 million (the "**Offering**"). Pursuant to MI 61-101, the Corporation has filed a material change report providing disclosure in relation to each "related party transaction" on SEDAR under Osisko Metals' issuer profile at [www.sedar.com](http://www.sedar.com). The Corporation did not file the material change report more than 21 days before the expected closing date of the Offering as the details of the Offering and the participation therein by each "related party" of the Corporation were not settled until shortly prior to the closing of the Offering, and the Corporation wished to close the Offering on an expedited basis for sound business reasons. The Corporation is relying on exemptions from the formal valuation and minority shareholder approval requirements available under MI 61-101. The Corporation is exempt from the formal valuation requirement in section 5.4 of MI 61-101 in reliance on sections 5.5(a) and (b) of MI 61-101 as the fair market value of the transaction, insofar as it involves interested parties, is not more than the 25% of the Corporation's market capitalization, and no securities of the Corporation are listed or quoted for trading on prescribed stock exchanges or stock markets. Additionally, the Corporation is exempt from minority shareholder approval requirement in section 5.6 of MI 61-101 in reliance on section 5.7(b) as the fair market value of the transaction, insofar as it involves interested parties, is not more than the 25% of the Corporation's market capitalization.

The gross proceeds from the Offering will be used by the Corporation to incur eligible "Canadian exploration expenses" that will qualify as "flow-through mining expenditures" as such terms are defined in the *Income Tax Act* (Canada) (the "**Qualifying Expenditures**") related to the Corporation's projects in Canada. All Qualifying Expenditures will be renounced in favour of the subscribers of the Flow-Through Shares effective December 31, 2019.

All securities issued under the Offering are subject to a four month hold period which will expire November 17, 2019. The Offering is subject to final acceptance of the TSX Venture Exchange. **The securities offered have not been registered under the U.S. Securities Act of 1933, as amended, and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements. This press release shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of the securities in any State in which such offer, solicitation or sale would be unlawful.**
